

SAWELD NiMo1/4

Submerged arc welding wires [SAW]

Construction, unalloyed steels

CLASSIFICATION: EN ISO 14171-A : S3Ni1Mo0,25 AWS A-5.23 : ENi5	APPROVALS:	APPLICATION: Steel construction yards Shipbuilding&Offshore		
• Submerged arc welding wire for tempered structural and high strength quenched steels. • Recommended for shipbuilding and offshore industry and also steel structures fabrication.				
Typical chemical composition %				
C 0,10	Si 0,22	Mn 1,45	Ni 0,90	Mo 0,25
Typical mechanical properties
